

2020 XCEL QUALIFICATION ALLOTMENT FOR SILVER, GOLD, PLATINUM DIVISIONS

Region 1 will be implementing an allotment system for qualifiers to the 2020 Xcel Regional Championships. Each state in Region 1 has been charged with generating its own qualification criteria to fill that allotment of the top finishers at their State Championships.

For NorCal, the Regional Allotment will be split evenly between the NorCal North and South State Xcel Championships. Each State Championship will divide the split allotment by the number of age groups, to determine the number of Regional Qualifiers per age group, based on All Around results.

- NorCal will use the following formula for qualification to Xcel Regional Championships:

Regional Allotment \div 2 \div number of age groups = number of gymnasts per age group that will advance from the NorCal North and NorCal South State Championships, respectively, to the Regional Championships, as determined by their All Around placement.

- The Regional Allotment for Xcel Silver, Gold, and Platinum gymnasts will be determined by the Region 1 Administrative Committee, and announced on March 18, 2020.
- As usual, the age groups for both NorCal North and South State Championships will be divided evenly and approved by the USA Gymnastics State Administrative Committee Chairman.
- Xcel Diamond Qualification to Regionals is a 32.00 or higher All Around score at State Championships.
